	ELEVATION LITE	SiteWork/ ELEVATION PRO
<b>InSite Software</b> for earthwork takeoffs and construction estimating calculates cut and fill, stripping, paving and concrete materials, topsoil re-spread, areas, lengths and item counts.		
<b>BILLED ANNUALLY</b>	<b>\$1,740</b>	<b>\$2,940</b>
Installs/Concurrent Users	1/1	3/1
<b>Take-Off</b>		
PDF with line selection on vector PDFs	*	*
CAD files and drone/data collector import		*
<b>Earthwork Take-Off</b>		
Cut & fill, stripping and demolition	*	*
Multiple region subgrade adjustments	20	90
Material take-off (concrete, asphalt, etc.)	*	*
Topsoil re-spread	*	*
Area, length, item count	*	*
Soil boring entry / cut by strata		*
Water table depth, RockAlert™		*
Multi-window interface	*	*
Calculations from triangulation	*	*
3-D Live w/ instant update of grade adjustments	*	*
Site drive throughs		*
Grading schematic	*	*
Cross section view		*
Area cut & fill	*	*
<b>Reports</b>		
Site C & F, Subgrade C & F, Materials, Stripping & Demo	*	*
Cut & fill worksheet		*
Export to PDF, XLS, email and more	*	*
Area, length and item count report	*	*
<b>Tools</b>		
Offsets	*	*
Slope to daylight		*
Split/select tool		*
Multi-phase layer copying utility		*
Dynamic Site Balancer		*
<b>Utility Take-Off</b>		
Sanitary & storm sewer take-off		*
Length by cut bracket		*
Excavation quantities by strata		*
Profile display		*
<b>GPS Machine Control</b>		
Model export (Topcon, Trimble, CAT, Leica, Komatsu, etc.)		*
BIM file export (Revit, Sketchup, etc.)		*
Buildings, points, offsets, vertical curb, road alignments		*
<b>Training</b>		
Initial onboarding class	*	*
Comprehensive manual and training videos	*	*
North American technical support (holidays excluded)	M-F 8am - 8pm ET	24/7
