

Earthwork Takeoff and GPS Modeling Solutions

(877) 746-7483

www.insitesoftware.com

<b>InSite Elevation</b> for earthwork takeoffs and construction estimating calculates cut and fill, stripping, paving and concrete materials, topsoil re-spread, areas, lengths and item counts.	ELEVATION <b>LITE</b>	ELEVATION <b>PRO</b>
<b>BILLED ANNUALLY</b>	<b>\$1,740 USD</b>	<b>\$2,940 USD</b>
Installs/Concurrent Users	1/1	2/1
<b>Take-Off</b>		
Docking workspace panels	*	*
PDF plans with vector line selection	*	*
CAD import		*
Drone/data collector import		*
Takeoff multiple aligned plans simultaneously	*	*
Simplified Multi-PDF Alignment	*	*
Undo/Redo	*	*
Improved file mgmt/recent Job list	*	*
4K Monitor Support	*	*
<b>Earthwork Take-Off</b>		
Cut & fill, stripping and demolition	*	*
Multiple region subgrade adjustments	20	90
Material take-off (concrete, asphalt, etc.)	*	*
Topsoil re-spread	*	*
Area, length, item count	*	*
Soil boring entry / strip & cut by strata		*
Water table depth		*
Dynamic Sloping Lines	*	*
Calculations from triangulation	*	*
3-D Live w/ instant update of grade adjustments	*	*
Grading schematic	*	*
Cross section view		*
<b>Reports</b>		
Site C & F, Subgrade C & F, Materials, Stripping & Demo	*	*
Export to PDF, XLS, email and more	*	*
Export to .DWG		*
Area, length and item count report	*	*
<b>Tools</b>		
Offsets	*	*
Slope to daylight		*
Split/select tool		*
Multi-phase layer copying utility		*
Dynamic Site Balancer		*
Create .dwg file from balancer		*
Area, length, item count	*	*
<b>GPS Machine Control</b>		
Model export (Topcon, Trimble, CAT, Leica, Komatsu, etc.)		*
BIM file export (Revit, Sketchup, etc.)		*
Buildings, points, offsets, vertical curb, road alignments		*
<b>Training</b>		
Initial onboarding class	*	*
Comprehensive manual and training videos	*	*
North American technical support (holidays excluded)	M-F 8am - 8pm ET	24/7

Prices effective 7/1/2021
